ABOUT ME

Data Analyst with hands-on full-stack development and business operations experience. Skilled in Power BI, SQL, Python, and Excel for turning raw business data into actionable insights, while also building and maintaining ERP systems and supporting end-to-end export operations, vendor coordination, and marketing. Passionate about combining data analysis with technology to solve real-world business problems.

SKILLS

- **Data Analysis:** Power BI, Tableau, Excel (Pivot Tables, formulas, dashboards)
- **Programming:** Python, Java, SQL, JavaScript
- **Databases:** MySQL, PostgreSQL
- **Web Development:** React, Node.js, HTML, CSS, Tailwind CSS, Vite
- **Tools:** VS Code, Git/GitHub, Google Workspace, Zoho Workspace, Antigravity IDE

EXPERIENCE

Data Analyst | Shastika Global Impex Pvt Ltd

On-site • Mar 2026 – Current

- Verified, cleaned, filtered, and maintained 2,000+ farmer records, ensuring data accuracy and consistency
- Collected and maintained international buyer and market data for export business development
- Prepared business reports and operational dashboards using Excel and Power BI
- Collaborated with stall designers to finalize booth design and create posters, and represented the company at Agri Index 2026, engaging directly with farmers across Tamil Nadu and other states

INTERNSHIP EXPERIENCE

Data Analytics Intern | iViewsense Pvt Ltd

Remote • Jul 2023 – Jul 2024

- Worked with real-time datasets to develop comprehensive reports and dashboards
- Applied data cleaning, preprocessing, and visualization techniques
- Generated actionable insights for client campaigns using Power BI and Excel
- Maintained documentation for data workflows and reporting processes
- Assisted senior analysts in performance analysis and predictive modeling

PROJECTS

Shastika Global Impex ERP System | React, Node.js, PostgreSQL

- Implemented role-based access control, session timeout, and audit logging
- Built ERP modules including Quality Control, Container Loading/Dispatch

Attendance Management System | React, Node.js, MySQL

- Built a full-stack attendance tracking application with daily, weekly, monthly, and yearly reporting dashboards
- Automated attendance percentage calculations, reducing manual errors and reporting time

Malware URL Detection | Python

- Developed a system to classify malicious URLs using data preprocessing and detection algorithms
- Improved detection accuracy and minimized false positives, strengthening cybersecurity measures

CERTIFICATIONS

- **Data Analytics using Power BI — Professional Training:** Built dashboards, data models, and business insights using Power BI
- **Python Full Stack Course — Udemy:** Covered Python, backend logic, and web development fundamentals
- **Associate Data Analyst — DataCamp:** Focused on data cleaning, analysis, and visualization techniques
- **Cloud Computing Certification — NPTEL:** Learned cloud fundamentals, deployment models, and services

EDUCATION

B.Tech – Information Technology | CGPA: 8.36 / 10

Sri Shanmugha College of Engineering and Technology • 2021 – 2025
